INDEX

A

Accountant's Report 4
ACHENBACH, P. R., Discussion on:
Temperature Drop in Ducts Embedded in Concrete Floors—Part II
Heat Losses from Floor Slab—Part III
Performance of a Warm-Air Radial-Feeder Perimeter-Loop System in a Residence 251
ACHENBACH, P. R., Discussions on: A Low-Inertia Low-Resistance Heat Flow Meter 286
Thermal Performance of Frame Walls 182
Air Distribution, A Smoke-Filament Technique for Experimental Research in Room, by H. B. NOTTAGE, J. G. SLABY and W. P. GOJSZA 399
Air Filters, Self-Charging Electrostatic, by W. T. VAN ORMAN and H. A. ENDRES 53
ALLCUT, E. A., and F. C. HOOPER, Discussion on A Study of a Transient Heat Method for Measuring Thermal Conductivity 339
A.S.H.V.E. Environment Laboratory, The, by CYRIL TASKER, C. M. HUMPHREYS, G. V. PARMELEE and L. F. SCHUTRUM 139
Analysis of the Effect of Uniformly Spaced Flat Opaque Slats—The Shading of Sunlit Glass, An, by G. V. PARMELEE and W. W. AUBELE 377
Annual Meeting, Fifty-Eighth (St. Louis, Mo.) 1
ASHLEY, C. M., Discussions on: Cooling Load from Sunlit Glass 330
Isothermal Ventilation-Jet Fundamentals 131
Atmosphere and Ground—A Design Factor in Heat Gain and Heat Loss, Radiant Energy Emission of, by G. V. PARMELEE and W. W. AUBELE 85
Atmospheric Air for a Supersonic Wind Tunnel, Experimental Data on Drying, by W. E. EMLEY, JR. 263
AUBELE, W. W., and G. V. PARMELEE, Radiant Energy Emission of Atmosphere and Ground—A Design Factor in Heat Gain and Heat Loss 85
Discussion 104
AUBELE, W. W., and G. V. PARMELEE, The Shading of Sunlit Glass—An Analysis of the Effect of Uniformly Spaced Flat Opaque Slats 377
Discussion 395
AVERY, LESTER T., Discussions on: Physiological Adjustments of Clothed Human Beings to Sudden Change in Environment—First Hot Moist and Later Comfortable Conditions 197
Self-Charging Electrostatic Air Filters 74

B

BAKER, MERL (Author's Closure), Effectiveness and Temperature Requirements for Cooling Panels Removing Internal Radiation 300
BAKER, MERL, Effectiveness and Temperature Requirements for Cooling Panels Removing Internal Radiation 287
Discussion 299
BRADLEY, C. B., Discussions on: A Low-Inertia Low-Resistance Heat Flow Meter 285
Thermal Performance of Frame Walls 183

C

CAMPBELL, E. K., Discussion on Isothermal Ventilation-Jet Fundamentals 134
CAMPBELL, E. K., Discussion on:
Temperature Drop in Ducts Embedded in Concrete Floors—Part II
Heat Losses from Floor Slab—Part III
Performance of a Warm-Air Radial-Feeder Perimeter-Loop System in a Residence 250

CHILDS, M. E. (Authors' Closure), Performance of a Warm-Air Radial-Feeder Perimeter-Loop System in a Residence 256
CHILDS, M. E., R. W. ROOSE and S. KONZO, Performance of a Warm-Air Radial-Feeder Perimeter-Loop System in a Residence 235
Discussion 250
Chilled Jet, Exploration of a, by H. B. NOTTAGE, J. G. SLABY and W. P. GOJSZA 357
Clothed Human Beings to Sudden Change in Environment—First Hot Moist and Later Comfortable Conditions, Physiological Adjustments of, by F. K. HICK, M.D., TOHRU INOUYE, R. W. KEETON, M.D., NATHANIEL GLICKMAN and M. K. FAHNESTOCK 189
CLYMER, A. B., Discussion on The Shading of Sunlit Glass—An Analysis of the Effect of Uniformly Spaced Flat Opaque Slats 396
Comfortable Conditions, Physiological Adjustments of Clothed Human Beings to Sudden Change in Environment—First Hot Moist and Later, by F. K. HICK, M.D., TOHRU INOUYE, R. W. KEETON, M.D., NATHANIEL GLICKMAN and M. K. FAHNESTOCK 189
Committee on Research, 1951 Annual Report 16
Concrete Floors—Park II, Warm-Air Perimeter Heating—Temperature Drop in Ducts Embedded in, by J. R. JAMIESON, R. W. ROOSE, S. KONZO and H. T. GILKEY 199
Conductivity, A Study of a Transient Heat Method for Measuring Thermal, by D. D'EUSTACHIO and R. E. SCHREINER 331
Conductivity of Most Insulating Materials, Gas Is an Important Factor in the Thermal, by F. B. ROWLEY, R. C. JORDAN, C. E. LUND and R. M. LANDER 155
CONOVER, E. W., Discussion on The Shading of Sunlit Glass—An Analysis of the Effect of Uniformly Spaced Flat Opaque Slats 395
Cooling Load from Sunlit Glass, by C. O. MACKEY and N. R. GAY 321
Discussion 330
Cooling Panels Removing Internal Radiation, Effectiveness and Temperature Requirements for, by MERL BAKER 287
Cooperating Institutions, A.S.H.V.E. Research in 20
Cooperative Projects (Research) 17
Council, Report of 2
CREPPS, R. B., Discussion on A Study of a Transient Heat Method for Measuring Thermal Conductivity 340

D

DANIELSON, W. A., Discussions on: Gas Is An Important Factor in the Thermal Conductivity of Most Insulating Materials 169
Isothermal Ventilation-Jet Fundamentals 134
Physiological Adjustments of Clothed Human Beings to Sudden Change in Environment—First Hot Moist and Later Comfortable Conditions 197
Design Factor in Heat Gain and Heat Loss—Radiant Energy Emission of Atmosphere and Ground, A, by G. V. PARMELEE and W. W. AUBELE 85
D'EUSTACHIO, D., and R. E. SCHREINER, A Study of a Transient Heat Method for Measuring Thermal Conductivity 331
Discussion 339
D'EUSTACHIO, D. (Authors' Closure), A Study of a Transient Heat Method for Measuring Thermal Conductivity 341
DILL, R. S., Discussion on Gas Is An Important Factor in the Thermal Conductivity of Most Insulating Materials 169
Director of Research, Report of 22
Ducts Embedded in Concrete Floors—Part II, Warm-Air Perimeter Heating—Temperature Drop in, by J. R. JAMIESON, R. W. ROOSE, S. KONZO and H. T. GILKEY 199

E

Effectiveness and Temperature Requirements for Cooling Panels Removing Internal Radiation, by MERL BAKER 287
Discussion 299

Electrostatic Air Filters, Self-Charging, by W. T. VAN ORMAN and H. A. ENDRES 53
EMLEY, W. E., JR. (Author's Closure), Experimental Data on Drying Atmospheric Air for a Supersonic Wind Tunnel 274
EMLEY, W. E., JR., Experimental Data on Drying Atmospheric Air for a Supersonic Wind Tunnel 263
Discussion 274
ENDRES, H. A., and W. T. VAN ORMAN, Self-Charging Electrostatic Air Filters 53
Discussion 66
Environment—First Hot Moist and Later Comfortable Conditions, Physiological Adjustments of Clothed Human Beings to Sudden Change in, by F. K. HICK, M.D., TOHRU INOUYE, R. W. KEETON, M.D., NATHANIEL GLICKMAN and M. K. FAHNESTOCK 189
Environment Laboratory 17
Environment Laboratory, The A.S.H.V.E., by CYRIL TASKER, C. M. HUMPHREYS, G. V. PARMELEE and L. F. SCHUTRUM 139
EVERETTS, JOHN, JR., Discussion on Experimental Data on Drying Atmospheric Air for a Supersonic Wind Tunnel 274
Experimental Data on Drying Atmospheric Air for a Supersonic Wind Tunnel, by W. E. EMLEY, JR. 263
Discussion 274
Exploration of a Chilled Jet, by H. B. NOTTAGE, J. G. SLABY and W. P. GOJSZA 357
Discussion 375

F

FAHNESTOCK, M. K., Discussion on:
Temperature Drop in Ducts Embedded in Concrete Floors—Part II
Heat Losses from Floor Slab—Part III
Performance of a Warm-Air Radial-Feeder Perimeter-Loop System in a Residence 254
FAHNESTOCK, M. K., F. K. HICK, M.D., TOHRU INOUYE, R. W. KEETON, M.D. and NATHANIEL GLICKMAN, Physiological Adjustments of Clothed Human Beings to Sudden Change in Environment—First Hot Moist and Later Comfortable Conditions 189
Discussion 197
Fifty-Eighth Annual Meeting 1
Filters, Self-Charging Electrostatic Air, by W. T. VAN ORMAN and H. A. ENDRES 53
Floor Slab—Part III, Warm-Air Perimeter Heating, Heat Losses from, by J. R. JAMIESON, R. W. ROOSE and S. KONZO 217
Frame Walls, Thermal Performance of, by G. O. HANDEGORD and N. B. HUTCHEON 171

G

Gas Is an Important Factor in the Thermal Conductivity of Most Insulating Materials, by F. B. ROWLEY, R. C. JORDAN, C. E. LUND and R. M. LANDER 155
Discussion 168
GAY, N. R., and C. O. MACKEY, Cooling Load from Sunlit Glass 321
Discussion 330
GAY, N. R. (Authors' Closure), Cooling Load from Sunlit Glass 330
GIESECKE, F. E., Venting Hot Water Heating Systems 37
Discussion 50
GILKEY, H. T., J. R. JAMIESON, R. W. ROOSE and S. KONZO, Warm-Air Perimeter Heating—Temperature Drop in Ducts Embedded in Concrete Floors—Part II 199
Discussion 250
GILMAN, S. F., Discussions on: A Smoke-Filament Technique for Experimental Research in Room Air Distribution 404
Isothermal Ventilation-Jet Fundamentals 133
Outlet Turbulence Intensity as a Factor in Isothermal-Jet Flow 351
Glass—An Analysis of the Effect of Uniformly Spaced Flat Opaque Slats, The Shading of Sunlit, by G. V. PARMELEE and W. W. AUBELE 377
Glass, Cooling Load from Sunlit, by C. O. MACKEY and N. R. GAY 321

GLICKMAN, NATHANIEL, M. K. FAHNESTOCK, F. K. HICK, M.D., TOHRU INOUYE and R. W. KEETON, M.D., Physiological Adjustments of Clothed Human Beings to Sudden Change in Environment—First Hot Moist and Later Comfortable Conditions 189
Discussion 197
GOJSZA, W. P., H. B. NOTTAGE and J. G. SLABY, A Smoke-Filament Technique for Experimental Research in Room Air Distribution 399
Discussion 404
GOJSZA, W. P., H. B. NOTTAGE and J. G. SLABY, A V-Wire Direction Probe 79
GOJSZA, W. P., H. B. NOTTAGE and J. G. SLABY, Exploration of a Chilled Jet 357
Discussion 375
GOJSZA, W. P., H. B. NOTTAGE and J. G. SLABY, Isothermal Ventilation-Jet Fundamentals 107
Discussion 131
GOJSZA, W. P., H. B. NOTTAGE and J. G. SLABY, Outlet Turbulence Intensity as a Factor in Isothermal-Jet Flow 343
Discussion 351
GREEBLER, P., and J. D. VERSCHOOR, Discussion on Gas Is an Important Factor in the Thermal Conductivity of Most Insulating Materials 168
Ground—A Design Factor in Heat Gain and Heat Loss, Radiant Energy Emission of Atmosphere and, by G. V. PARMELEE and W. W. AUBELE 85

H

HANDEGORD, G. O., and N. B. HUTCHEON, Thermal Performance of Frame Walls 171
Discussion 182
HANDEGORD, G. O., Discussion on:
Temperature Drop in Ducts Embedded in Concrete Floors—Part II
Heat Losses from Floor Slab—Part III
Performance of a Warm-Air Radial-Feeder Perimeter-Loop System in a Residence 252
Heat Flow Meter, A Low-Inertia Low-Resistance, by R. G. HUEBSCHER, L. F. SCHUTRUM and G. V. PARMELEE 275
Heat Gain and Heat Loss—Radiant Energy Emission of Atmosphere and Ground, A Design Factor in, by G. V. PARMELEE and W. W. AUBELE 85
Heat Losses from Floor Slab—Part III, Warm-Air Perimeter Heating, by J. R. JAMIESON, R. W. ROOSE and S. KONZO 217
Heat Method for Measuring Thermal Conductivity, A Study of a Transient, by D. D'EUSTACHIO and R. E. SCHREINER 331
Heating Systems, Venting Hot Water, by F. E. GIESECKE 37
HELANDER, LINN, Discussion on Outlet Turbulence Intensity as a Factor in Isothermal-Jet Flow 353
HICK, F. K., M.D. (Authors' Closure), Physiological Adjustments of Clothed Human Beings to Sudden Change in Environment—First Hot Moist and Later Comfortable Conditions 197
HICK, F. K., M.D., TOHRU INOUYE, R. W. KEETON, M.D., NATHANIEL GLICKMAN and M. K. FAHNESTOCK, Physiological Adjustments of Clothed Human Beings to Sudden Change in Environment—First Hot Moist and Later Comfortable Conditions 189
Discussion 197
HOOPER, F. C., and E. A. ALLCUT, Discussion on A Study of a Transient Heat Method for Measuring Thermal Conductivity 339
HOOPER, F. C., Discussion on A Low-Inertia Low-Resistance Heat Flow Meter 285
Hot Moist and Later Comfortable Conditions, Physiological Adjustments of Clothed Human Beings to Sudden Change in Environment—First, by F. K. HICK, M.D., TOHRU INOUYE, R. W. KEETON, M.D., NATHANIEL GLICKMAN and M. K. FAHNESTOCK 189
Hot Plate, Moisture Migration in a Closed Guarded, by N. B. HUTCHEON and J. A. PAXTON 301
Hot Water Heating Systems, Venting, by F. E. GIESECKE 37
HUBBARD, A. B., Discussion on Self-Charging Electrostatic Air Filters 72

HUEBSCHER, R. G. (Authors' Closure), A Low-Inertia Low-Resistance Heat Flow Meter 286
HUEBSCHER, R. G., L. F. SCHUTRUM and G. V. PARMELEE, A Low-Inertia Low-Resistance Heat Flow Meter 275
Discussion 285
Human Beings to Sudden Change in Environment—First Hot Moist and Later Comfortable Conditions, Physiological Adjustments of Clothed, by F. K. HICK, M.D., TOHRU INOUYE, R. W. KEETON, M.D., NATHANIEL GLICKMAN and M. K. FAHNESTOCK 189
HUMPHREYS, C. M., G. V. PARMELEE, L. F. SCHUTRUM and CYRIL TASKER, The A.S.H.V.E. Environment Laboratory 139
HUTCHEON, N. B., and G. O. HANDEGORD, Thermal Performance of Frame Walls 171
Discussion 182
HUTCHEON, N. B., and J. A. PAXTON, Moisture Migration in a Closed Guarded Hot Plate 301
Discussion 319
HUTCHEON, N. B. (Authors' Closure), Moisture Migration in a Closed Guarded Hot Plate 320
HUTCHEON, N. B. (Authors' Closure), Thermal Performance of Frame Walls 186
HUTCHEON, N. B., Discussions on: A Study of a Transient Heat Method for Measuring Thermal Conductivity 340
Gas Is an Important Factor in the Thermal Conductivity of Most Insulating Materials 169

I

INCE, F. E., Discussion on:
Temperature Drop in Ducts Embedded in Concrete Floors—Part II
Heat Losses from Floor Slab—Part III
Performance of a Warm-Air Radial-Feeder Perimeter-Loop System in a Residence 251
INOUYE, TOHRU, R. W. KEETON, M.D., NATHANIEL GLICKMAN, M. K. FAHNESTOCK and F. K. HICK, M.D., Physiological Adjustments of Clothed Human Beings to Sudden Change in Environment—First Hot Moist and Later Comfortable Conditions 189
Discussion 197
Insulating Materials, Gas Is an Important Factor in the Thermal Conductivity of Most, by F. B. ROWLEY, R. C. JORDAN, C. E. LUND and R. M. LANDER 155
Isothermal-Jet Flow, Outlet Turbulence Intensity as a Factor in, by H. B. NOTTAGE, J. G. SLABY and W. P. GOJSZA 343
Isothermal Ventilation-Jet Fundamentals, by H. B. NOTTAGE, J. G. SLABY and W. P. GOJSZA 107
Discussion 131

J

JAMIESON, J. R. (Authors' Closure):
Temperature Drop in Ducts Embedded in Concrete Floors—Part II
Heat Losses from Floob Slab—Part III
Performance of a Warm-Air Radial-Feeder Perimeter-Loop System in a Residence 255
JAMIESON, J. R., R. W. ROOSE and S. KONZO, Warm-Air Perimeter Heating—Heat Losses from Floor Slab—Part III 217
Discussion 250
JAMIESON, J. R., R. W. ROOSE, S. KONZO and H. T. GILKEY, Warm-Air Perimeter Heating—Temperature Drop in Ducts Embedded in Concrete Floors—Part II 199
Discussion 250
Jet, Exploration of a Chilled, by H. B. NOTTAGE, J. G. SLABY and W. P. GOJSZA 357
JORDAN, R. C., C. E. LUND, R. M. LANDER and F. B. ROWLEY, Gas Is an Important Factor in the Thermal Conductivity of Most Insulating Materials 155
Discussion 168

JOY, F. A., Discussions on: A Study of a Transient Heat Method for Measuring Thermal Conductivity 340
Thermal Performance of Frame Walls 184

K

KAYAN, C. F., Discussion on Moisture Migration in a Closed Guarded Hot Plate 319
KEETON, R. W., M.D., NATHANIEL GLICKMAN, M. K. FAHNESTOCK, F. K. HICK, M.D., and TOHRU INOUYE, Physiological Adjustments of Clothed Human Beings to Sudden Change in Environment—First Hot Moist and Later Comfortable Conditions 189
Discussion 197
KONZO, S., H. T. GILKEY, J. R. JAMIESON and R. W. ROOSE, Warm-Air Perimeter Heating—Temperature Drop in Ducts Embedded in Concrete Floors—Part II 199
Discussion 250
KONZO, S., J. R. JAMIESON and R. W. ROOSE, Warm-Air Perimeter Heating—Heat Losses from Floor Slab—Part III 217
Discussion 250
KONZO, S., M. E. CHILDS and R. W. ROOSE, Performance of a Warm-Air Radial-Feeder Perimeter-Loop System in a Residence 235
Discussion 250

L

Laboratory Projects 16
Laboratory, The A.S.H.V.E. Environment, by CYRIL TASKER, C. M. HUMPHREYS, G. V. PARMELEE and L. F. SCHUTRUM 139
LANDER, R. M., F. B. ROWLEY, R. C. JORDAN and C. E. LUND, Gas Is an Important Factor in the Thermal Conductivity of Most Insulating Materials 155
Discussion 168
LANGENBERG, E. B., Discussion on:
Temperature Drop in Ducts Embedded in Concrete Floors—Part II
Heat Losses from Floor Slab—Part III
Performance of a Warm-Air Radial-Feeder Perimeter-Loop System in a Residence 254
LEOPOLD, C. S., Discussions on: Effectiveness and Temperature Requirements for Cooling Panels Removing Internal Radiation 299
Exploration of a Chilled Jet 375
LEWIS, S. R., Discussion on:
Temperature Drop in Ducts Embedded in Concrete Floors—Part II
Heat Losses from Floor Slab—Part III
Performance of a Warm-Air Radial-Feeder Perimeter-Loop System in a Residence 251
LOCKHART, H. A., Discussion on Venting Hot Water Heating Systems 51
Losses from Floor Slab—Part III, Warm-Air Perimeter Heating, Heat, by J. R. JAMIESON, R. W. ROOSE and S. KONZO 217
Low-Inertia Low-Resistance Heat Flow Meter, A, by R. G. HUEBSCHER, L. F. SCHUTRUM and G. V. PARMELEE 275
Discussion 285
Low-Resistance Heat Flow Meter, A Low-Inertia, by R. G. HUEBSCHER, L. F. SCHUTRUM and G. V. PARMELEE 275
LUND, C. E., R. M. LANDER, F. B. ROWLEY and R. C. JORDAN, Gas Is an Important Factor in the Thermal Conductivity of Most Insulating Materials 155
Discussion 168
LYNCH, J. T., Discussion on:
Temperature Drop in Ducts Embedded in Concrete Floors—Part II
Heat Losses from Floob Slab—Part III
Performance of a Warm-Air Radial-Feeder Perimeter-Loop System in a Residence 253

M

MACKEY, C. O., and N. R. GAY, Cooling Load from Sunlit Glass 321
Discussion 330
MACKEY, C. O., Discussion on Radiant Energy Emission of Atmosphere and Ground—A Design Factor in Heat Gain and Heat Loss 104
McKINLEY, R. W., Discussion on The Shading of Sunlit Glass—An Analysis of the Effect of Uniformly Spaced Flat Opaque Slats 396
Meter, A Low-Inertia Low-Resistance Heat Flow, by R. G. HUEBSCHER, L. F. SCHUTRUM and G. V. PARMELEE 275
Migration in a Closed Guarded Hot Plate, Moisture, by N. B. HUTCHEON and J. A. PAXTON 301
MILLER, R. A., Discussions on: Isothermal Ventilation-Jet Fundamentals 133
The Shading of Sunlit Glass—An Analysis of the Effect of Uniformly Spaced Flat Opaque Slats 397
MILLS, D. L., Discussion on:
Temperature Drop in Ducts Embedded in Concrete Floors—Part II
Heat Losses from Floor Slab—Part III
Performance of a Warm-Air Radial-Feeder Perimeter-Loop System in a Residence 254
MILL, D. L., Discussion on Venting Hot Water Heating Systems 50
Moisture Migration in a Closed Guarded Hot Plate, by N. B. HUTCHEON and J. A. PAXTON 301
Discussion 319
MYLER, W. M., JR., Discussion on Self-Charging Electrostatic Air Filters 75

N

NOTTAGE, H. B. (Authors' Closure), A Smoke-Filament Technique for Experimental Research in Room Air Distribution 404
NOTTAGE, H. B. (Authors' Closure), Exploration of a Chilled Jet 376
NOTTAGE, H. B. (Authors' Closure), Isothermal Ventilation-Jet Fundamentals 134
NOTTAGE, H. B. (Authors' Closure), Outlet Turbulence Intensity as a Factor in Isothermal-Jet Flow 354
NOTTAGE, H. B., J. G. SLABY and W. P. GOJSZA, A Smoke-Filament Technique for Experimental Research in Room Air Distribution 399
Discussion 404
NOTTAGE, H. B., J. G. SLABY and W. P. GOJSZA, A V-Wire Direction Probe 79
NOTTAGE, H. B., J. G. SLABY and W. P. GOJSZA, Exploration of a Chilled Jet 357
Discussion 375
NOTTAGE, H. B., J. G. SLABY and W. P. GOJSZA, Isothermal Ventilation-Jet Fundamentals 107
Discussion 131
NOTTAGE, H. B., J. G. SLABY and W. P. GOJSZA, Outlet Turbulence Intensity as a Factor in Isothermal-Jet Flow 343
Discussion 351
NUTTING, ARTHUR, Discussion on Self-Charging Electrostatic Air Filters 72

O

Operational Guide (Research) 20
Outlet Turbulence Intensity as a Factor in Isothermal-Jet Flow, by H. B. NOTTAGE, J. G. SLABY and W. P. GOJSZA 343
Discussion 351

P

Panels, Removing Internal Radiation, Effectiveness and Temperature Requirements for Cooling, by MERL BAKER 287

PARMELEE, G. V., and W. W. AUBELE, Radiant Energy Emission of Atmosphere and Ground—A Design Factor in Heat Gain and Heat Loss 85
Discussion 104
PARMELEE, G. V., and W. W. AUBELE, The Shading of Sunlit Glass—An Analysis of the Effect of Uniformly Spaced Flat Opaque Slats 377
Discussion 395
PARMELEE, G. V. (Authors' Closure), The Shading of Sunlit Glass—An Analysis of the Effect of Uniformly Spaced Flat Opaque Slats 397
PARMELEE, G. V., Discussion on Gas Is an Important Factor in the Thermal Conductivity of Most Insulating Materials 169
PARMELEE, G. V., L. F. SCHUTRUM, CYRIL TASKER and C. M. HUMPHREYS, The A.S.H.V.E. Environment Laboratory 139
PARMELEE, G. V., R. G. HUEBSCHER and L. F. SCHUTRUM, A Low-Inertia Low-Resistance Heat Flow Meter 275
Discussion 285
PAXTON, J. A., and N. B. HUTCHEON, Moisture Migration in a Closed Guarded Hot Plate 301
Discussion 319
Performance of a Warm-Air Radial-Feeder Perimeter-Loop System in a Residence, by M. E. CHILDS, R. W. ROOSE and S. KONZO 235
Discussion 250
Perimeter Heating—Temperature Drop in Ducts Embedded in Concrete Floors—Part II, Warm-Air, by J. R. JAMIESON, R. W. ROOSE, S. KONZO and H. T. GILKEY 199
Perimeter-Loop System in a Residence, Performance of a Warm-Air Radial-Feeder, by M. E. CHILDS, R. W. ROOSE and S. KONZO 235
PHILLIPS, L. R., Discussion on Outlet Turbulence Intensity as a Factor in Isothermal-Jet Flow 353
Physiological Adjustments of Clothed Human Beings to Sudden Change in Environment—First Hot Moist and Later Comfortable Conditions, by F. K. HICK, M.D., TOHRU INOUYE, R. W. KEETON, M.D., NATHANIEL GLICKMAN and M. K. FAHNESTOCK 189
Discussion 197
Probe, A V-Wire Direction, by H. B. NOTTAGE, J. G. SLABY and W. P. GOJSZA 79
Program, 58th Annual Meeting 33
Program, Semi-Annual Meeting, 1952 261

R

Radial-Feeder Perimeter-Loop System in a Residence, Performance of a Warm-Air, by M. E. CHILDS, R. W. ROOSE and S. KONZO 235
Radiant Energy Emission of Atmosphere and Ground—A Design Factor in Heat Gain and Heat Loss, by G. V. PARMELEE and W. W. AUBELE 85
Discussion 104
REICH, H. H., Discussion on Isothermal Ventilation-Jet Fundamentals 134
Research, 1951 Annual Report of Committee on 16
Research Papers (1951) 21
Residence, Performance of a Warm-Air Radial-Feeder Perimeter-Loop System in a, by M. E. CHILDS, R. W. ROOSE and S. KONZO 235
Resolutions, Fifty-Eighth Annual Meeting 32
Resolutions, Semi-Annual Meeting, 1952 260
ROOSE, R. W., S. KONZO and J. R. JAMIESON, Warm-Air Perimeter Heating—Heat Losses from Floor Slab—Part III 217
Discussion 250
ROOSE, R. W., S. KONZO and M. E. CHILDS, Performance of a Warm-Air Radial-Feeder Perimeter-Loop System in a Residence 235
Discussion 250
ROOSE, R. W., S. KONZO, H. T. GILKEY and J. R. JAMIESON, Warm-Air Perimeter Heating—Temperature Drop in Ducts Embedded in Concrete Floors—Part II 199
Discussion 250
ROWE, C. B., Discussion on Self-Charging Electrostatic Air Filters 66

ROWLEY, F. B. (Authors' Closure), Gas Is an Important Factor in the Thermal Conductivity of Most Insulating Materials 169
ROWLEY, F. B., Discussion on Thermal Performance of Frame Walls 184
ROWLEY, F. B., R. C. JORDAN, C. E. LUND and R. M. LANDER, Gas Is an Important Factor in the Thermal Conductivity of Most Insulating Materials 155
Discussion 168

S

SCHREINER, R. E., and D. D'EUSTACHIO, A Study of a Transient Heat Method for Measuring Thermal Conductivity 331
Discussion 339
SCHUTRUM, L. F., CYRIL TASKER, C. M. HUMPHREYS and G. V. PARMELEE, The A.S.H.V.E. Environment Laboratory 139
SCHUTRUM, L. F., G. V. PARMELEE and R. G. HUEBSCHER, A Low-Inertia Low-Resistance Heat Flow Meter 275
Discussion 285
Self-Charging Electrostatic Air Filters, by W. T. VAN ORMAN and H. A. ENDRES 53
Discussion 66
Semi-Annual Meeting, 1952 (Spring Lake, N. J.) 259
Shading of Sunlit Glass—An Analysis of the Effect of Uniformly Spaced Flat Opaque Slats, The, by G. V. PARMELEE and W. W. AUBELE 377
Discussion 395
SLABY, J. G., W. P. GOJSZA and H. B. NOTTAGE, A Smoke-Filament Technique for Experimental Research in Room Air Distribution 399
Discussion 404
SLABY, J. G., W. P. GOJSZA and H. B. NOTTAGE, A V-Wire Direction Probe 79
SLABY, J. G., W. P. GOJSZA and H. B. NOTTAGE, Exploration of a Chilled Jet 357
Discussion 375
SLABY, J. G., W. P. GOJSZA and H. B. NOTTAGE, Isothermal Ventilation-Jet Fundamentals 107
Discussion 131
SLABY, J. G., W. P. GOJSZA and H. B. NOTTAGE, Outlet Turbulence Intensity as a Factor in Isothermal-Jet Flow 343
Discussion 351
Slats—The Shading of Sunlit Glass, An Analysis of the Effect of Uniformly Spaced Flat Opaque, by G. V. PARMELEE and W. W. AUBELE 377
Smoke-Filament Technique for Experimental Research in Room Air Distribution, A, by H. B. NOTTAGE, J. G. SLABY and W. P. GOJSZA 399
Discussion 404
STEWART, J. P., Discussion on The Shading of Sunlit Glass—An Analysis of the Effect of Uniformly Spaced Flat Opaque Slats 396
Study of a Transient Heat Method for Measuring Thermal Conductivity, A, by D. D'EUSTACHIO and R. E. SCHREINER 331
Discussion 339
Sunlit Glass—An Analysis of the Effect of Uniformly Spaced Flat Opaque Slats, The Shading of, by G. V. PARMELEE and W. W. AUBELE 377
Sunlit Glass, Cooling Load from, by C. O. MACKEY and N. R. GAY 321

T

TASKER, CYRIL, C. M. HUMPHREYS, G. V. PARMELEE and L. F. SCHUTRUM, The A.S.H.V.E. Environment Laboratory 139
TASKER, CYRIL, Discussions on: Exploration of a Chilled Jet 375
The Shading of Sunlit Glass—An Analysis of the Effect of Uniformly Spaced Flat Opaque Slats 397
TEESDALE, L. V., Discussions on: A Low-Inertia Low-Resistance Heat Flow Meter 285
Moisture Migration in a Closed Guarded Hot Plate 319
Temperature Drop in Ducts Embedded in Concrete Floors—Part II, Warm-Air Perimeter Heating, by J. R. JAMIESON, R. W. ROOSE, S. KONZO and H. T. GILKEY 199

Temperature Requirements for Cooling Panels Removing Internal Radiation, Effectiveness and, by MERL BAKER 287
Thermal Conductivity, A Study of a Transient Heat Method for Measuring, by D. D'EUSTACHIO and R. E. SCHREINER 331
Thermal Conductivity of Most Insulating Materials, Gas Is an Important Factor in the, by F. B. ROWLEY, R. C. JORDAN, C. E. LUND and R. M. LANDER 155
Thermal Performance of Frame Walls, by G. O. HANDEGORD and N. B. HUTCHEON 171
Discussion 182
Turbulence Intensity as a Factor in Isothermal-Jet Flow, Outlet, by H. B. NOTTAGE, J. G. SLABY and W. P. GOJSZA 343
TUVE, G. L., Discussion on:
Temperature Drop in Ducts Embedded in Concrete Floors—Part II
Heat Losses from Floor Slab—Part III
Performance of a Warm-Air Radial-Feeder Perimeter-Loop System in a Residence 253
TUVE, G. L., Discussions on: Isothermal Ventilation-Jet Fundamentals 131
Outlet Turbulence Intensity as a Factor in Isothermal-Jet Flow 352

V

VAN ORMAN, W. T., and H. A. ENDRES, Self-Charging Electrostatic Air Filters 53
Discussion 66
VAN ORMAN, W. T. (Authors' Closure), Self-Charging Electrostatic Air Filters 75
Ventilation-Jet Fundamentals, Isothermal, by H. B. NOTTAGE, J. G. SLABY and W. P. GOJSZA 107
Venting Hot Water Heating Systems, by F. E. GIESECKE 37
Discussion 50
VERSCHOOR, J. D., and P. GREEBLER, Discussion on Gas Is an Important Factor in the Thermal Conductivity of Most Insulating Materials 168
V-Wire Direction Probe, A, by H. B. NOTTAGE, J. G. SLABY and W. P. GOJSZA 79
